Standard CPU Holders

Series Models
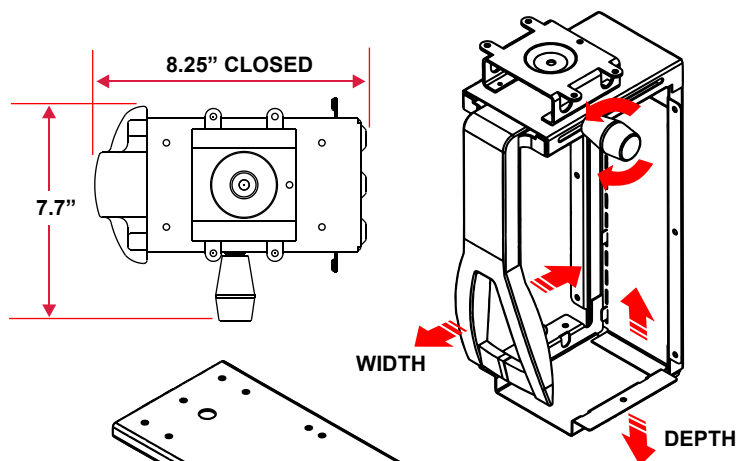

7301D *(U-PCPU)*
7351D
7356D

Our CPU holders have significantly changed over the years with many enhancements. The current plastic side clamp with bumpers replaced the metal version to increase stability and clamping force as well as dramatically improving the aesthetics. The knob for adjusting the clamp replaced the old style lever for improved usability. Models include a fixed mount, plastic glide track and ball bearing track for under desk storage. CPU holders are also side mountable.
